

Year 2 newsletter Summer 2

Dear Parents and Carers,

Welcome back to the final term of the academic year! SATs are now finally over and we hope you and your family enjoyed a well-earned rest over the half term break.

But...the hard work will still continue in Summer 2, as we ensure every child consolidates their learning and is secure in meeting their personal targets for Year 2. We will also be preparing the children to smoothly transition upstairs, ready for Year 3 in September.

Thank you to those parents who give their time and support to their child's education, outside of school hours - we appreciate how busy everyone is. But please keep this up, as we are really seeing progress in the children who regularly engage with their learning at home as well as school.

Our learning: In History, we are looking at what people were like in our city 100 years ago and what life was like for the Victorians. Within Science we are learning about how chefs grow their ingredients to use in their recipes. During English lessons we are reading the classic novel "Oliver Twist" by Charles Dickens. In Maths we are continuing our arithmetic work and how to apply each operation in a 'real-life' context using reasoning and problem solving.

Warmest regards,
Miss Mathieson
Year 2 lead

Week beg	Mon	Tues	Wed	Thurs	Fri
4.6.18	School closed	First day back			News-letter out today
